What to pay	**£290.96**

You're spending an average of **£1.58** a day

Your metered charges explained

We charge you separately for fresh water, which comes out of your taps, and wastewater, which goes down your drains.

Your fresh water charges pay for sourcing, storing and delivering water to your home. Your wastewater charges pay for removing, cleaning and returning that water safely to the environment after you've used it.

If you need help understanding your charges, please head to **thameswater.co.uk/bill**

What's a fixed charge?

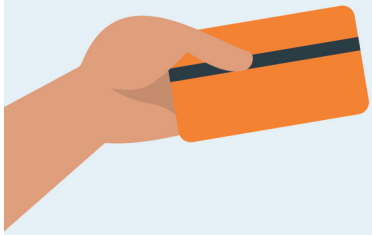
Your fixed charge helps to cover some of our essential running costs, like maintaining pipes and handling enquiries.

Could you save on your wastewater?

You could save £50.16 a year on your wastewater fixed charge if all the rainwater from your property drains into a soakaway, stream or river instead of our sewer. Find out more at **thameswater.co.uk/swd**

You could also make savings if more than 10% of the water you use doesn't return to our sewer system. Find out more at **thameswater.co.uk/abatement**

3 How to pay



Take control of your payments with **Direct Debit**, or pay instantly by **debit or credit card**.

Changes to our charges

Our charges are subject to change each year. On average, our charges went up by 40.7% on 1 April 2025. This includes inflation, which is affected by energy prices, and revenue allowances permitted by Ofwat. We follow guidance from our regulator Ofwat and consult CCW, the voice for water consumers, on our charges. Learn more at **thameswater.co.uk/value**

Struggling to pay?

If you're worried about the cost of your bill, we'll do everything we can to help. Our support includes affordable payment plans, discounted tariffs, grants and more. For more information, visit **thameswater.co.uk/helppaying**

Don't wait too late

Please leave enough time for your payment to reach us. Missing a payment or paying late may affect your credit rating.

If you're not satisfied with the final outcome from the first two stages of our complaints process or your issue is over eight weeks old and would like free, trusted, independent advice you can call the Consumer Council for Water (CCW), the independent voice for water consumers in England, on 0300 034 2222 or use their online form at www.ccwater.org.uk/contact-us

Our commitment to you: We'll always make an appointment with you before we visit, turn up within the agreed appointment slot, and give you 24 hours' notice if we have to cancel; respond to written queries and complaints about your bill or service within 10 working days; let you know within five working days if we can't action a written request to change your payment arrangements; provide 48 hours' advance notice of planned work that might result in you having no water supply for four hours or more; restore your water supply within the time specified on the notice for planned work; restore your water supply within 12 hours of a burst water pipe; maintain an appropriate water pressure to your property; and protect your property from flooding from our sewers. If we fail to achieve this level of service, or if we have to issue you with a 'restriction of use' notice because of problems with our water supply or because of drought, we'll pay you as part of our Customer Guarantee Scheme. To view our compensation policy, visit **thameswater.co.uk/compensation** or call us and ask for a copy.

Moving home
Please give us at least two days' notice before you move, otherwise you may be liable for charges after you've moved out.

Learning about us
To find out more about our performance as a company, visit **thameswater.co.uk/annualreport**

Maintaining water quality
We test over 500,000 samples of our world-class water each year. To check the water quality in your area, visit **thameswater.co.uk/waterquality**

Taking care of your meter
We treat your meter readings as an accurate measurement of how much water you use so we can charge you correctly. If your meter readings seem unusually high or low, your meter could be faulty. If you're worried, you can ask us to test it for you and we'll replace it. If our tests show the old meter wasn't faulty, we'll charge you a fee of £70 + VAT. Find out more at **thameswater.co.uk/charges**

It's an offence for you to tamper with, damage or remove your meter. Please make sure we can access it whenever needed.

Helping with leaks
